Executive **Summary**

Knova Software Technologies Pvt. Ltd. is a Software Development, Information Technology Services and Consultancy firm providing competitively priced outsourcing services to companies worldwide.

Having a strong local presence in Pakistan, Knova Software Technologies Pvt. Ltd. has made its mark as a well-established and sound company driven by the industry's highly professional and trained individuals and is surely headed in becoming a leading organization which facilitates, enhances and provides measurable business value through most effective uses of Technology and Resources to organizations globally.

Knova Software Technologies Pvt. Ltd. Is also a recognized partner of Odoo, which is the best management software to run a company. Millions of happy users work better with Odoo integrated Apps successfully throughout world. Odoo is a world's most renowned Open Source Business Solution, having more than 40,000 modules and covering all types of business requirements. Odoo will assist you to automate processes and routine tasks, hence increase efficiency and productivity which results in a reduction of overall operational costs.

Highly skilled intellectual personnel, most having substantial work experience in diverse areas of Information Technology make up the Knova Software Technologies Pvt. Ltd. team. Our management ensures that each individual excels in their specific assigned tasks by working closely with them.

Only those individuals are hired who not only possess strong technical and analytical skills, high intellect, sound work ethics and integrity but also who have confidence, decision making abilities and above all the drive to excel whether it is at the management level or at a technology/software development position.

Our focused, sound and innovative approach is derived from the cumulative experience of our team members. As a result of their combined practical business experience with strong technology delivery capabilities, we are able to comprehend the client's business requirements, propose IT and creative strategies in line with the vision of the business and execute the business plan by building or implementing high quality scalable business solutions through the use of latest cutting edge Technologies.

COMMITTED TO PROVIDING SUBSTANTIVE BUSINESS VALUE

Knova Software Technologies Pvt. Ltd. is committed to providing substantive business value of each and every product developed and client engagement. We achieve this through a combination of expert Industry-Specific business analysis, strong technical skills, sound project management methods and traditional values.

We strive to work in collaboration with our customers to be able to build high performance teams necessary for creating and maintaining world class business solutions. We have qualifications in the areas of Information Technology planning, Custom Software Development, Web Centric Software Solutions, ERP development and implementations, Creative Designing and Marketing with emphasis on Industry-Specific Business Analysis and the use of latest technologies for the development and implementations of leading business solutions that work in an enterprise area globally.

6 REASONS THAT MAKE US THE PREMIER CHOICE

INTELLECT & EXPERIENCE

Highly skilled professionals who possess expertise in diverse Business and Technology areas make up the Knova Software Technologies Pvt. Ltd. team. To provide world class service, we employ the best technicians, adhere to proven methodology, provide superior client service and become a true business partner in every project.

OUR APPROACH

Our Roadmap to development is a collection of eight steps, each of which has its own significance.

- Data Mining
- Forming a sketch
- Designing
- Making a blue print
- Constructing
- Testing
- Deployment
- Maintenance & Up gradation

COMMITMENT TO QUALITY

We believe in Quality service and our approach has been designed to provide the same. We listen carefully to our clients and provide space, time and materials according to agreement for the project. We are proud of our Technical and Creative capability and this emerges from taking time to get it right. Our Quality Assurance Department tests throughout the process to ensure that the project will be successful.

ON TIME DELIVERY

We invest the time up-front to clearly understand your needs and then manage projects to ensure they are delivered on time and within budget. This methodology expedites rapid successful implementation, limits uncertainty and keeps the customer always aware of development progress at our end.

COMPETITIVE PRICING

We render services to our clients at a very competitive price and depending on the type of client engagement we offer them the most suitable pricing model structure which could either be fixed price based , time and effort based or a dedicated offshore team model.

TRACK RECORD

We have handled small - large scale projects and have over the years implemented solutions for numerous organizations of all sizes. Our growing list of satisfied customers' not only act as our excellent references but are also a source of our repeat business.

WEB DEVELOPMENT SERVICES

THE CORE OF OUR BUSINES

Our focus to specialize in the combination of high impact design with solid development of user-friendly and functional web applications that not only enhance your corporate image but also aim to increase sales and visitor retention has proven beneficial in attracting and maintaining an increasing list of prestigious clients. We at Knova Software Technologies Pvt. Ltd. guarantee tailor-built corporate web solutions and web 2.0 applications that not only stand out from the competition, but also helps build your reputation as a leader in your industry.

PRACTICE AREAS

- Custom Web Design & Development
- Web Apps
- E-Commerce Solution & Storefronts
- Enterprise Portal Development
- Application Maintenance

SOFTWARE DEVELOPMENT SERVICES

Since inception we have been providing state of the art Custom Software Solutions to midsize/large organizations. In developing custom software, we see our role as partners, not merely programmers. We recognize that solutions succeed not solely for technical reasons, but because end-users and internal IT staff feel ownership.

Our RAD model development capabilities offer significantly reduced development time and savings in developing, implementing and maintaining custom Enterprise applications.

In the last decade, a number of management philosophies have been developed in an attempt to define what companies must do to compete in the new global economy. Emphasis is now placed on the use of enterprise-wide information solutions to impact the decision processes of management. Organizations have rediscovered the basics, realizing that the most effective strategy is to organize their resources in order to achieve better performance. Today's dynamic business requirements need dynamic information solutions. Generic software is not flexible enough to meet the diverse demands of each unique business. Considering all the aspects in mind we design cost effective tailor built, high performance software for organizations that need made to order, high-end customized solutions

PRACTICE AREAS

- Software Development
- Software Migration & Re-engineering
- Software Testing

ODOO ERP

Knova Software Technologies Pvt. Ltd. is an official ODOO partner in Pakistan. ODOO is the world's best license free software that integrates all the features of ERP, which comprising a wide array of business applications subsuming Project Management, CRM, Sales, Manufacturing, Warehouse Management, and Financial Management.

Taking the functionality of Open ERP to another level altogether, ODOO is a comprehensive suite. Not only it is open source and possesses ERP capabilities, but it has much more to offer apart from Enterprise Resource Planning functionalities. ODOO has the support of a dynamic community, is highly flexible and can be easily customized as per your needs.

It Helps your Business

Not just the ODOO is easy software to use, but it is also highly flexible as it can be easily tailored to fit in the specific business requisites of a company. It supports the continuous innovation and scalability which is required by the organizations in order to lead the market in today's cutting edge competitive scenario.

Odoo Awards and Achievements

One of world's leading software review platforms has recently included Odoo in its ERP software directory, and prepared a detailed review to introduce our system to readers coming from all around the world. After being carefully examined by a team of B2B professionals, Odoo was also distinguished with two of the platform's top 2017 awards, namely the Great User Experience Award and the 2017 Rising Star for the ERP software reviews category.

IMPLEMENTATION APPROCH

Project Methodology

Not just the ODOO is easy so we use Agile project management which is the most successful project management methodology in software engineering so far. Agile methodology is closed to iterative methodology in nature but its main focus is more on deliverables to customer/end users and on their feedback, then changes/enhancements/fixes based on feedback. This approach has many advantages, highest rate/chances of success and lowest risks are the key features of Agile methodology in which all phases repeat themselves in each iterations. Software to use, but it is also highly flexible as it can be easily tailored to fit in the specific business requisites of a company. It supports the continuous innovation and scalability which is required by the organizations in order to lead the market in today's cutting edge competitive scenario.

Project Phases

Following will be the main phases during the project life cycle.

Project Pre-Initiation:

- Scope Determination
- Time and cost constraints

FINANCIAL AUTOMATION

FINANCIAL AUTOMATION - GET IT DONE THE RIGHT WAY

A series of changing market trends are reshaping the financial management needs of companies of all sizes, especially small and midsize business. These companies as they grow are faced with the same business and legal requirements as larger enterprises. Gaining a competitive advantage and maintaining a loyal customer base has become a lot harder due to an increasingly commoditized marketplace and at the same time many businesses are increasingly reliant on a dispersed workforce of remote or mobile employees due to the growth of the internet.

TODAY'S GROWING BUSINESSES ARE FACING UNPRECEDENTED CHALLENGES AND OPPORTUNITIES

In order to manage these escalating challenges and fully capitalize upon today's expanding market opportunities, many growing companies are recognizing they must adopt robust financial management systems to support their businesses. The organization's workforce must submit key data to the company's financial system and must be able to access this corporate information from anywhere, at any time to do their jobs effectively.

MAIN FEATURES

The requirement of having a full featured accounting system that can be accessed anywhere at any time is compelling many growing firms to investigate affordable alternatives to packaged software such as QuickBooks and PeachTree as companies often seek a system that

- Automates complex revenue management, including support for deferred revenue management and multi element arrangements.
- Supports multiple business entities and on demand financial consolidation.
- Delivers real time financial visibility.
- Provides and it ability that satisfies regulatory and compliance requirements.
- Seamlessly integrates with other applications in your eco system.
- Provides anytime, anywhere access.

To cater to the financial automation requirements of these growing small and midsized firms, Knova Software Technologies Pvt. Ltd. introduces VAS - An easy to use full featured core financial automation system making business management easy by providing complete access to your accounting system functions AP, AR and GL anytime, anywhere through an easy to use web interface. VAS is a robust financial management system

- That handles your increasingly complicated transactions.
- Helps you to better forecast and track your revenue flows.
- Allows you to keep a closer eye on your cost structures and adhere to tighter accounting and regulatory compliance standards.

TECHNOLOGY INTEGRATION SERVICES

Businesses are evolving and becoming more and more demanding. Specialized software's are required to remove the functional barriers and improve organizational efficiency. Many corporations are still using systems that serve their standalone needs and have a hard time in communication. This means that a lot of time is spent on validating data, entering data into multiple systems and gathering data from many different systems. Time spent on these kinds of mundane tasks could be spent on serving your company's customers instead. Business Integration services give the ability to integrate the diverse data and information sources both within and outside your enterprise into a single coherent framework.

System integration enables communication between many independent systems and their processes. When we connect different systems and applications you get faster communication with a higher security in your internal and external processes. Flexible organizations, where cooperation and optimization for existing or new business areas are in focus, have already created and implemented software integration.

Knova Software Technologies Pvt. Ltd. has abundance of experience and technical savoir faire in the integration of business software. Our consultants have a solid experience from short problem solving activities to large integration solutions, where we have implemented efficiency and structure in the integration environment. Our experience in system architecture is well suited for implementing an architecture that does not bog down the company but instead ensures that the company can enjoy an IT-architecture that delivers on the demands of the business.

In recent years, the company has enjoyed grand success in the integration of enterprise software.

MIS OUTSOURCING

Knova Software Technologies Pvt. Ltd. also provides MIS outsourcing services to small and medium sized businesses in order to improve their IT infrastructure and to streamline business processes and performance. We are currently relieving a number of SME's of the burden of having full time and costly internal IT employees. Using our team of professionals you will obtain the best of breed advice and expertise.

Some of our clients outsource small portion or all of their IT support to us but they all benefit by having:

- Business Grade IT Support
- Guaranteed Response Times
- Expert Technology Advice
- Broad Business Knowledge
- Friendly Customer Service
- Professional Track able Systems

CONSULTANCY SERVICES

Knova Software Technologies Pvt Ltd enable you in creating a vision for the future and reach consensus on investment priorities and information technology strategies for all major constituencies. Importantly, we focus on aligning these strategies and investment priorities with the immediate, short-term, and long-range goals of your organization. Finally, moving from alignment to action, your information technology strategies are translated into a detailed phasing/implementation plan that identifies specific projects, time frames, expected results, budget, resource needs, and organization (management and governance). With Knova Software Technologies Pvt Ltd, this comprehensive and realistic action plan, or road map, becomes a "living document" that will guide your organization's investments of money, time, and energy related to information technology management over a multi-year period, incorporating new technology, e-commerce opportunities, and regulatory compliance.

Knova Software Technologies Pvt Ltd is proudly providing consultancy services to large scale organizations and above all has team members on board who are not only Microsoft certified but also have tremendous experience in business consultancy Unlike traditional technology-centric approaches to information management and e-commerce, we at Knova Software Technologies Pvt Ltd Consultancy Services focus on business transformation and applying our extensive experience in the Information Technology industry to help you:

- Align your Information Technology strategy with your business processes.
- Avoid pitfalls and ensure that IT initiatives are focused on the areas of highest "real value" to the organization.
- Address targeted areas of improvement.
- Enhance quality of care and support. Increase customer and employee satisfaction.
- Strengthen financial results.

Knova Software Technologies Pvt Ltd Consultants help devise an Information Technology strategic plan that serves as a "road map" to guide capital investments over a multi-year period and alternately can also provide a "second opinion" regarding your current Information Technology strategic plan, projects already in the planning stage and/or perform return on investment analyses as well as assisting organizations with plan implementation including tactical planning, vendor selection & contract negotiation, applications management, applications delivery and systems integration through sound trustworthy consulting services across IT Management, Business Analysis, Technology and HR consulting domains.

CREATIVE, DESIGN & MULTIMEDIA

LOGO DESIGN

Understanding your business is a key part of our design process. Our highly skilled Graphic Design team can assist you to develop a Logo that represent your company/brand image as we do understand that proper and competent branding begins with a well-conceived properly designed logo.
The things that you can expect from us are:

- Fast Turnaround time
- Original Designs
- Print Friendly
- Uniqueness

STATIONARY DESIGN

The fact is corporate stationary plays a very important part in assessing a company's approach. Our designers ensure that they always come up with top quality designs whenever a client requests stationary design. Designs that are practical, elegant and very professional. By doing so, they come up with the most impressive of visiting cards, letterheads, envelopes and etc. We also offer the services of having this corporate stationary printed on top quality material ensuring that next time you give someone your visiting card, you get nothing but praise.

WEB DESIGN

The internet is the new globally accessible art gallery. Company's bank a lot on their virtual existence on the World Wide Web through websites. These websites are accessible to a huge audience and make no mistake about it, the good ones are talked about a lot. Web designing is amongst the modern day graphic designing skills with creative parameters changing every day! Our team has designed some of the best web interfaces over the years. Our portfolio of web design exhibits the most modern of trends with aesthetically pleasing look and feel. With the use of cutting edge technologies like HTML 5, CSS 3.0, JQuery and Ajax we ensure a UI experience that creates an impact.

INTERNET ADVERTISING

The internet represents an opportunity to grow and market your business both locally and globally to reach new customers and expand your reach. Web banners and web banner ads for advertising your web business need to drive web traffic to your web site. Our web banner graphic design team is devoted to the creation of effective web banners, web banner ads, and web banner advertisement that drives traffic to your web site. Our eye catching custom web banner ad designs are available as any size web banner ads.

PRINT MEDIA DESIGN

At Knova Software Technologies Pvt Ltd, we have a dedicated team of graphic designers with an abundance of commercial experience with creative visualization. As a result of this combined expertise in the field of graphic design company for digital print design we have worked with a wide range of clients to produce highly creative innovative marketing design and print media advertisements.

MULTIMEDIA DESIGN

By multimedia design, we essentially mean video shoots, video compositing, motion graphics etc. Using these, we have produced a number of television ads, cable tv scrolls, telups and documentaries. Our services in this field include script writing, story boarding, production time and post production facilities. Our priority is to come up with creative concepts and ideas which really give our client the competitive edge whenever the production is screened somewhere.

Social Media Marketing Services

Our Social Media Marketing Services help your business grow brand awareness, relationships, and website traffic. Today, communication has changed. It is not bought, it is earned! We help brands earn time with their consumers online via simple, hardworking ideas.

Brand Awareness

Growing your followers on social media will help you increase word of mouth and referrals. Our social media marketing services will help you increase your followers with relevant people. We will ensure that your followers match the demographics, interests, and behaviors of your typical customers

Build Relationships

When you build a strong connection through engagement with your audience, they are more likely to buy from you. We will help you increase engagement (likes, comment, etc.) on your social media posts. The more engagement you have, the stronger your connection is with your audience.

Website Traffic

Increasing your website traffic will directly influence leads and sales. We will focus on developing social media advertising campaigns that drive high volumes of traffic to your website. To increase conversions, we can add on retargeting ads to stay in front of recent website visitors.

OFFSHORE OUTSOURCING
